With a view to implementing an employee offering, Renault acquires 10% of the 14 million Renault shares sold by the French state

Boulogne-Billancourt, November 3, 2017 – With a view to implementing an employee offering, Renault acquires 10% of the 14 million Renault shares sold by the French State.

The French State announced the closing of the sale of 4.73% of the share capital of Renault (i.e., 14 million shares) through a placement to institutional investors by way of an accelerated book building.

This sale evidences the support that the French State as shareholder of Renault gives to the strengthening of the Alliance and it occurs in a consolidated climate of trust among Renault and its main shareholder. This sale is particularly timely in support of the “Drive the Future” strategic mid-term plan, that Groupe Renault just launched.

In accordance with applicable regulation, Renault has decided to acquire 10% of the shares sold by the French State (i.e., 1,400,000 Renault shares), at the placement price, with a view to implementing an offering reserved for employees and former employees of Groupe Renault, in order to allow them to participate in the Groupe Renault’s performance.
